## Benefits

- Has delivered higher returns than European high yield, with lower volatility
- Can be used to replace long-term HY bond allocations or for tactical HY positioning
- Uses CDS indices rather than the corporate bonds, to enhance liquidity and minimise interest rate risk

## About the index

The IECL Index provides exposure to high yield European corporate credit. To emphasise credit risk and reduce direct interest rate risk, it takes exposure via a liquid credit default swap (CDS) index rather than corporate bonds:

- iTraxx Crossover 5y (75 sub-investment grade entities, equal weight)

The index reflects the return from selling protection on the current series of iTraxx Crossover 5y, with market exposure of around 100%, rebalanced monthly\*. It assumes a yield of EONIA - 0.25% (subject to change) on cash and is calculated net of transaction costs.

\* The market exposure is based on a ratio of notional times CDS bond equivalent price to Index value, so the notional to Net Asset Value ratio typically differ from 100%.

## Index performance

Index performance is calculated by IHS Markit. Past performance (actual or simulated) is not a reliable indicator of future performance.

## About Tabula

Tabula is a new ETF provider focused on fixed income for European institutional investors.

Tabula is focused on fixed income, supporting investors as flows into the asset class accelerate. The company believes that although fundamentals and market dynamics are positive for fixed income, the persistent innovation that ignited the equity ETF market has been lacking in this sector. As a result, the large incumbent funds continue to gather assets, but investors are hungry for new products.

Tabula has launched its first ETF and will be expanding its offering this year, providing new and more precise tools for passive credit exposure. Over time, Tabula plans to expand across the asset class, moving from investment grade and high yield credit into inflation, government debt, emerging markets, bank capital, money markets, ESG strategies and Solvency II-efficient funds.

Tabula is working in partnership with HSBC, IHS Markit, Cheyne Capital, KB Associates, ICE and PWC.
