About our career programme

We offer two learning and development opportunities that support your career progression and help make a real difference to our organisation.

Quantitative analysis Internship

Our quantitative analysts support fund analyses and operations on a day-to-day basis. The position also provides significant support to the risk management of our ETFs.

Key responsibilities

- Building excel templates and writing python code to facilitate analysis
- Working with and supporting existing analytical tools
- Helping to prepare fund metrics comparisons and pitches
- Maintaining database and marketing materials
- Supporting European market research

Required skills and experience

- Finance-related degrees are welcome, a quantitative undergraduate degree in a field such as physics/mathematics/engineering with a finance related Master's degree is an ideal profile
- Strong Excel skills
- Python programming experience

Investor relations Internship

Our investor relations team is focused on managing Tabula's external-facing activities and enhancing the effectiveness of the Coverage group by providing support for our European clients and prospects.

Key responsibilities

- Prepare and maintain marketing materials, including website and presentations, ensuring all materials are kept up to date
- Assist with inbound investor enquiries, ad hoc questions and due diligence materials
- Maintain and develop CRM system and extract insights into client data
- Undertake fund and market research

Required skills and experience

- First class academic background
- Strong qualitative and quantitative skills
- Strong communication skills
- Ability to work in a fast-paced high pressure environment

Meet our interns

Eleonora

Currently an IR and Coverage intern 2020/21

Eleonora is an analyst at Tabula within the investor relations team. She holds a MSc in Business Development from Grenoble Ecole de Management

Nikitas

Currently a Quant intern 2020/21

Nikitas is responsible for providing support to the quantitative analysis function at Tabula. He holds an MSc in risk management and financial engineering from Imperial College London

"I have only been with Tabula a few weeks and already I am enjoying the experience and getting invaluable exposure across the business." - Christian

"Working at Tabula has been exhilarating. It's been a steep learning curve, but also a lot of fun!" - Eleonora

"Working at Tabula gave me a real insight into the financial services and asset management space. I really took a lot away from the experience." - Tommaso

"I love working at Tabula, it's a dynamic and fast-paced environment where ability and initiative are rewarded. I am looking forward to joining Tabula's sister company after my 12-month internship finishes." - Nikitas

Christian

Currently an IR and Coverage intern 2020/21

Christian is an intern at Tabula within the Investor Relations and Coverage teams. He holds a BSc in Economics from the University of Exeter.

Tommaso

IR intern 2018

Tommaso was an IR and Coverage intern and is now in Quantitative Investment Strategies Sales at BNP Paribas. Tommaso holds a MSc in Financial Markets and Investments from SKEMA Business School.

Giacomo

Quant intern 2018

Giacomo was a Quantitative Analyst intern at Tabula. He now works in Exotic Derivative Structuring within Goldman Sachs' Global Markets division. Giacomo holds a MSc in Financial Engineering from École Polytechnique Fédérale de Lausanne.

Peter Merriman is as a Business Analyst at Tabula working in Client Coverage and Operations. Peter initially joined Tabula as a Client Coverage intern. He holds an MSc in Financial Economics from the Erasmus University Rotterdam.

“Following my internship at Tabula, I was thrilled to be offered a full-time position as a Business Analyst. My new role allows me to drive business change across the firm”

Q&A with Peter Merriman

IR Intern 2019/20

How was the internship structured?

Through a flat hierarchy and working closely with all teams, the structure of the internship gave me exposure to all areas of Tabula's business. Where my main focus was on supporting the German-speaking business developments, I was encouraged to gain experience across the business.

What did you enjoy most about the internship?

In comparison to working at larger institutions, working at Tabula let me materialise and visualise the work I do from day one. Having the opportunity to meaningfully contribute to the progress and success of the firm is extremely rewarding.

What is unique about Tabula?

The way Tabula as a company comes together in terms of individuals, products and work life collectively offers an environment you do not see too often in this industry.
