

TABULA ICAV

SFDR WEBSITE DISCLOSURES

Sustainability Policy

Pursuant to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, Tabula ICAV is required to disclose the manner in which sustainability risks are integrated into the investment process and the results of the assessment of the likely impacts of sustainability risks on the returns of the funds under management.

Tabula ICAV has adopted the Sustainability Policy of Tabula Investment Management Limited. A copy of this policy can be found at <https://www.tabulaim.com/documents>.

No Consideration of Principal Adverse Impact

Pursuant to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, Tabula ICAV is required to determine whether it considers the principal adverse impacts of its investment decisions on sustainability factors.

Due to the size, nature and scale of the investments of the funds under management and in the absence of regulatory technical standards, Tabula ICAV will not include a consideration of the principal adverse impacts of investment decisions on sustainability factors at this time. For the reasons set out above, the ICAV does not consider adverse impacts of investment decisions on sustainability factors at the level of each fund under management at this time. Tabula ICAV's position on this matter will be kept under review.

Remuneration Policy

Pursuant to Regulation (EU) 2019/2088 on sustainability-related disclosures on the financial services sector, Tabula ICAV is required to include in its remuneration policy information on how its policy is consistent with the integration of sustainability risks.

The remuneration policy of Tabula ICAV has been updated in this regard and is available at <https://www.tabulaim.com/documents>.

Sustainability-related disclosures

Pursuant to Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector, Tabula ICAV is required to disclose how Tabula Investment Management Limited (the "**Investment Manager**") intends to meet the environmental or social characteristics or sustainable investment objective(s) applicable to each fund under management. Tabula ICAV has delegated investment management of the funds to the Investment Manager, an FCA-authorized entity.

Defined terms used herein shall have the meaning given to those terms in the prospectus and/or relevant supplement(s).

To achieve this, the Index uses a special carbon emission metric called GHG Intensity. GHG Intensity is calculated as the greenhouse gas emissions divided by the book value of the equity and debt of the issuing company; - All potential Index constituents are screened using ESG and climate data from ISS. Bonds which meet any one of the criteria set out in the Supplement are excluded from the investible universe; - Additional information on the Index and the general methodology behind it is available at https://www.solactive.com/indices/. Further information on the Index, including its constituents and weightings, shall be available on demand and free of charge from the Investment Manager
