Investment objective

The Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF (the Fund) aims to track the iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index (IBXXUJXT Index), less fees and expenses.

About the index

The index provide exposure to USD-denominated Asia ex-Japan HY bond that meet the requirements for a EU SFDR Article 8 benchmark. The index applies ESG filters to Asia ex-Japan high yield bonds with remaining time to maturity of more than 1 year and an issuer notional of at least US\$400m.

The index uses data provided by MSCI ESG Research to exclude issuers in violation of social norms (including the UN Global Compact), involved with controversial weapons or tobacco, causing significant environmental harm or with revenues from oil, gas, coal and energy intensive electricity above certain thresholds. In addition, an ESG tilt and momentum factor is applied.

The index has a 3% issuer cap and 50% sector cap, where excess weights are redistributed proportionately to the remaining bonds. Sector exposures are managed within 5% of the parent index.

A detailed methodology is available in the documents section of tabulaim.com.

Investment Process

The ETF invests in a portfolio of corporate bonds that reflects the composition of the index as far as practicable, less fees and expenses.

Key risks

- No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.
- Liquidity risk: Lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily. Neither the Index provider nor the issuer make any representation or forecast on liquidity.
- Counterparty risk: The Sub-Fund may incur losses if any institution providing services such as safekeeping of assets or acting as a derivatives counterparty becomes insolvent.
- ESG screening: The environmental, social and governance screening criteria are embedded with the index selection process, which seeks to exclude bonds issued by companies involved in certain activities. The investment manager is not responsible for monitoring the screening process or confirming that all bonds which pass the screening process are issued by companies with adequate environmental, social or governance standards.
- Credit risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Sub-Fund when due.
- High yield securities risk: The prices of high yield bonds are likely to be more sensitive to adverse economic changes or individual issuer developments than higher rated securities possibly leading to high yield issuers not being able to service their principal and interest payment obligations. The secondary market for securities that are high yield may be less liquid than the markets for higher quality securities.
- Emerging markets risk: issuers from emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include a greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.

For more information on the risks to the Sub-Fund, please see the supplement for the Sub-Fund and the prospectus of Tabula ICAV, available on the product pages of tabulaim.com.

Important information

This document is issued by Tabula Investment Management Limited ("Tabula"), on behalf of Tabula ICAV, an umbrella Irish collective asset-management vehicle incorporated in Ireland, authorised and regulated by the Financial Conduct Authority ("FCA"). Tabula is a private limited company registered in England and Wales (Registered no. 11286661). Registered address: 10 Norwich Street, London EC4A 1BD. Business address: 6th Floor, 55 Strand, London WC2N 5LR. The ETFs referenced in this document (each a "Fund") are open-ended investment sub-funds of Tabula ICAV, which has variable capital, having segregated liability between its funds, and is organised under the laws of Ireland and authorised by the Central Bank of Ireland.

This document is for Professional Clients (as defined by the FCA or MiFID Rules) and Qualified Investors only and should not be relied upon by any other persons.

This does not constitute an offer or recommendation to buy or sell any product.
