INTERPRETATION

Save as set out below, capitalised terms shall have the same meaning herein as in the Prospectus.

Definitions	
"Bond Selection Date"	means the date on which a new series of the iTraxx Europe Index is published following constituent selection and reweighting, being March, September and such other date as the Index Provider may determine. The constituents of the new series are selected on the basis of liquidity in credit markets.
"Business Day"	means, unless otherwise determined by the Directors and notified in advance to the Shareholders, a day (excluding Saturdays and Sundays) on which the Target System and the banks in the UK are open for normal business.
"Dealing Day"	means, unless otherwise determined by the Directors and notified in advance to Shareholders, each Business Day. However, some Business Days will not be Dealing Days including, but not limited to, Christmas Eve (24 December) and New Year's Eve (31 December), when the markets relevant to the Index are closed, when the Directors, in their discretion, suspend the determination of the Net Asset Value and/or the subscription and/or redemption of Shares provided that there is at least two Dealing Day per month occurring at regular intervals. As further described in the "*Special Considerations and Risk Factors*" section of the Prospectus, in the event of market disruption, the Directors may determine that a Business Day is not a Dealing Day. An up-to-date dealing calendar specifying the Sub-Fund's Dealing Days will be available on: http://www.tabulaim.com/.
"Index"	means the iBoxx iTraxx Europe Bond Index.
"Index Provider"	means Markit Indices Limited.
"Index Rebalancing Date"	means the Bond Selection Date and, where there has been no Bond Selection Date in a calendar month, the last Business Day of each calendar month (or, if any of these days is not a Business Day, the next Business Day).
"Index Value"	means the value of the Index calculated on each Business Day.
"**Initial Offer Period**"	means the period beginning at 9.00 a.m. (London time) on 31 December 2019 and terminating at 5.00 p.m. (London time) on 30 June 2020 or such other period determined by the Directors in accordance with the requirements of the Central Bank.
"Investment Manager"	Tabula Investment Management Limited
"iTraxx Europe Index"	means a basket of 125 investment grade bonds issued by European entities selected by IHS Markit Indices Limited. On the Bond Selection Date, a new series of the iTraxx Europe Index is published. Additional information is available at www.ihsmarkit.com.

Definitions	
“Minimum Dealing Size”	means in respect of the Sub-Fund the minimum number of Exchange-Traded Shares for subscription and redemption by Authorised Participants, which shall be 10,000 Shares.
“Settlement Time”	means the second Business Day after the relevant Dealing Day, or such other times as may be determined by the Directors provided that in the case of redemptions, the Settlement Time shall not be later than the tenth Business Day after the relevant dealing deadline.
“Trade Cut-Off Time”	means, for subscriptions and redemptions of Shares in Hedged Share Classes 3.00 p.m. (London time) on the relevant Dealing Day and for subscriptions and redemptions in Base Currency Share Classes 3.00 p.m. (London time) on the relevant Dealing Day, or such other times as may be agreed with the Directors provided that the Trade Cut-Off Time shall always precede the Valuation Point.
“Valuation Point”	means, unless otherwise determined by the Directors and notified in advance to Shareholders, 11:00 p.m. (Irish time) on the relevant Dealing Day. Securities that are quoted, listed or traded on or under the rules of any Regulated Market shall be valued at the bid- price on the relevant Regulated Market at the Valuation Point.

INVESTMENT OBJECTIVE, STRATEGY AND POLICY

Investment Objective	The objective of the Sub-Fund is to track the performance of the Index to within an acceptable Tracking Error. **There can be no assurance that the Sub-Fund will achieve its investment objective.** **Investors should note that an investment in the Sub-Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.**
Investment Policy	The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of investment grade fixed rate corporate bonds that, as far as practicable, reflects the composition of the Index. While it is intended that the Sub-Fund's investments will comprise investment grade issues, issues may be downgraded in certain circumstances from time to time. In such event the Sub-Fund may hold non-investment grade issues until such time as the non-investment grade issues cease to form part of the Sub-Fund's Index (where applicable) and it is possible and practicable (in the Investment Manager's view) to liquidate the position. The Sub-Fund will use a sampling strategy and therefore may not hold every constituent of the Index and may not hold constituents in the same proportions as their weightings in the Index. When sampling is used, the Investment Manager will use industry standard tools (i.e. non-proprietary tools that are readily available to all investment funds employing a sampling strategy, such as the Bloomberg Portfolio and Risk Analytics Terminal (PORT)) to select a portfolio with similar risk and return characteristics to the Index in order to generate similar returns to the Index. As further described in the '*Investment Techniques and Instruments*' section in the Prospectus, the Sub-Fund may also invest in securities which are not constituents of the Index and/or financial derivative instruments (FDIs) related to a constituent of the Index, for efficient portfolio management purposes, where such securities and/or FDIs would achieve a risk and return profile similar to that of the Index, a constituent of the Index or a sub-set of constituents of the Index. The FDIs in which the Sub-Fund may invest for efficient portfolio management purposes are swaps and futures as more particularly described in the Prospectus. If the Sub-Fund cannot achieve its investment objective by direct investment in a portfolio of investment grade fixed rate corporate bonds that reflect the composition of the Index, the Sub-Fund may seek to achieve its investment objective through investment in an OTC Total Return Swap whereby the Sub-Fund receives the return of the Index in exchange for the payment to the Swap Counterparty of an agreed rate of return pursuant to an agreement in accordance with the requirements of the International Swaps and Derivatives Association. In such circumstances, the Sub-Fund may be principally invested in FDI. The Sub-Fund will invest cash received by it (from investor subscriptions or other cash paid to the Sub-Fund by one or more Swap Counterparties as profit on the OTC Total Return Swap) in both cash and non-cash Collateral Assets comprised of sovereign debt with a view to seeking to achieve a

	return equivalent to the payments due to the Sub-Fund by the Swap Counterparty. The securities and FDIs in which the Sub-Fund invests will be primarily listed or traded on the stock exchanges and regulated markets set out in Schedule 1 of the Prospectus although the Sub-Fund may also invest in unlisted securities in accordance with the limits set out in the UCITS Regulations.
Tracking Error	Tracking error will arise because of trading costs and taxes and, while there can be no assurance that it will not exceed such figure, tracking error is expected to be up to 0.5% in normal market conditions. For the avoidance of doubt, the foregoing indication of tracking error does not take into account the Total Expense Ratio, as described below under the heading "*Fees and Expenses*".
Description of the Index	The Index is designed to provide liquid exposure to European investment grade fixed rate corporate bonds. It reflects the performance of bonds issued by corporate entities that are constituents of the current series of the iTraxx Europe Index. Bonds are selected according to the following criteria: i. Denominated in EUR; ii. Minimum outstanding of EUR 500 million; iii. Remaining time to maturity of between 3 and 7 years; iv. Up to three bonds per entity. If there are more than three eligible bonds for an entity, selection will be based on the following additional criteria: highest notional outstanding, lowest age, highest rating and lowest coupon. Bond selection takes place twice a year on the Bond Selection Dates to reflect changes in the iTraxx Europe Index. Note that, due to the selection criteria, the Index may not reflect all the entities in the iTraxx Europe Index. Bonds are weighted such that each entity has equal notional amount and the overall Index has a weighted average time to maturity as close as possible to 5.25 years on the Bond Selection Dates. The Index is also rebalanced monthly to incorporate any coupon income received by the Sub-Fund in respect of any bond held by it on the Index Rebalancing Dates. Additional information on the Index and the general methodology behind it is available at www.ihsmarkit.com. Further information on the Index, including its constituents, shall be available on demand from the Investment Manager.
What impacts the performance/return of the Sub-Fund?	The performance of the Sub-Fund will depend on several factors including: i. the market value of the corporate bonds held by the Sub-Fund; ii. gains, losses and transaction costs generated by any rebalancing of the Sub-Fund's corporate bond portfolio; iii. the market value of any Collateral Assets; iv. any coupon income received by the Sub-Fund and not yet reinvested in corporate bonds; v. fees borne by the Sub-Fund; and vi. where relevant, any hedging costs.

Investment in Collective Investment Schemes	The Sub-Fund will not invest more than 10% of its Net Asset Value in Eligible Collective Investment Schemes.
Securities Financing Transactions and Swaps	As more particularly described in the section of the Prospectus entitled "*Securities Financing Transactions and Swaps*" and as described in the section of this Supplement entitled "*Investment Policy*", the Fund may invest in OTC Total Return Swaps subject to the requirements of SFTR and in accordance with normal market practice, the Central Bank Regulations and the Central Bank rules. Subject to the limitations referred to above and in the Prospectus, up to 100 % of a Sub-Fund's assets may be the subject of an OTC Total Return Swap, although it is expected that at any time only 50% of a Sub-Fund's assets may be subject to an OTC Total Return Swap.
Dividend Policy	Certain Shares Classes of the Sub-Fund, as set out in the appendix to this Supplement, shall distribute dividends to Shareholders in accordance with the section of the Prospectus entitled "*Dividend Policy*". Dividends will be paid in cash by electronic transfer and will generally be declared as at the end of each semi-annual period. In respect of the Share Classes marked "accumulating" in the appendix to this Supplement, the ICAV does not intend to distribute dividends. Net income will be managed in accordance with the UCITS cash management limits, whereupon it will reinvested at the next Index Rebalancing Date.
Profile of a Typical Investor in the Sub-Fund	An investment in the Sub-Fund is suitable for investors who are able and willing to invest in a sub-fund with a medium to high risk grading. An investment in the Sub-Fund is intended for Financially Sophisticated Investors. Therefore the Sub-Fund is appropriate for Financially Sophisticated Investors who understand its strategy, characteristics and risks. A "Financially Sophisticated Investor" means an investor who: - has knowledge of, and investment experience in financial markets generally; and - understands and can evaluate the strategy, characteristics and risks of the Sub-Fund in order to make an informed investment decision.
Risk Factors	Investors' attention is drawn to the risk factors set out in the section of the Prospectus entitled "Special Considerations and Risk Factors".
Base Currency	EUR
UCITS Compliance	The Investment Manager uses the methodology known as the "Commitment Approach" in order to measure the global exposure of the Sub-Fund and manage the potential loss to them due to market risk. The Commitment Approach is a methodology that aggregates the underlying market or notional values of FDI to determine the degree of global exposure of a Sub-Fund to FDI. Pursuant to the UCITS Regulations, in the event that a Sub-Fund uses leverage in the future, the global exposure for a Sub-Fund must not exceed 100% of that Fund's Net Asset Value. The Sub-Fund may have small cash balances from time to time and may use FDI to produce a return

	on that cash similar to the Index. The Sub-Fund may also use FDI as set out in the Prospectus. In addition, for a Sub-Fund which invest in fixed income securities, in order to match the duration and risk profile of the relevant Index they may obtain a larger percentage weight exposure through FDI than the relevant cash balance. While it is not the Investment Manager's intention to leverage the Fund, any leverage resulting from the use of FDIs will be done in accordance with the UCITS Regulations. Further detail on the calculation of global exposure is set out in the financial derivative instrument risk management process of the Sub-Fund ("**RMP**"). The RMP employed enables the Investment Manager to accurately measure, monitor and manage the various risks associated with FDI, including leverage.
Relevant Stock Exchanges	Application has been made in respect of the following Exchange-Traded Shares of the Sub-Fund to Euronext Dublin (formerly the Irish Stock Exchange) for admission to the Official List and to trading on the regulated market of Euronext Dublin: CHF Hedged Dist, USD Hedged Dist, GBP Hedged Dist, CHF Hedged Acc, USD Hedged Acc, GBP Hedged Acc, Dist and Acc. Neither the admission of the CHF Hedged Dist, USD Hedged Dist, GBP Hedged Dist, CHF Hedged Acc, USD Hedged Acc, GBP Hedged Acc, Dist and Acc to the Official List, nor to trading on the regulated market of Euronext Dublin, nor the approval of the listing particulars pursuant to the listing requirements of the Euronext Dublin shall constitute a warranty or representation by Euronext Dublin as to the competence of service providers to or any other party connected with the ICAV, the adequacy of information contained in the listing particulars or the suitability of the ICAV or the Sub-Fund for investment purposes. Application has also been made in respect of the CHF Hedged Dist, USD Hedged Dist, GBP Hedged Dist, CHF Hedged Acc, USD Hedged Acc, GBP Hedged Acc, Dist and Acc for admission to trading on the Main Market of the London Stock Exchange plc.
Publication of Share Prices	The Irish Stock Exchange trading as Euronext Dublin will be notified immediately of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on Euronext Dublin (www.ise.ie). The London Stock Exchange will be notified without delay of the Net Asset Value per Share of each relevant Exchange-Traded Share Class, which will be available on www.londonstockexchange.com. The Net Asset Value per Share of the relevant Share Classes will also be available on http://www.tabulaim.com/.
Portfolio Holdings	The portfolio holdings (for the previous day) will be published for a particular the Fund will be available daily on http://www.tabulaim.com/

FEES AND EXPENSES

The total annual fees and operating expenses of the Sub-Fund (except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund) per Share class will be up to the percentage per annum of the Net Asset Value of the (the "**Total Expense Ratio**" or "**TER**") Share Class as set out in the Appendix to this Supplement.

Such fee shall accrue daily and be payable monthly in arrears to the Investment Manager. The Investment Manager will receive no further disbursement for expenses, out of pocket or otherwise from the Sub-Fund. Except for transaction charges and taxes or duty charges for portfolio re-balancing, all of which are paid separately out of the assets of the Sub-Fund, Tabula will be responsible for the payment of all fees, costs, and expenses of the Sub-Fund, including but not limited to fees and expenses paid to any sub-distributor or paying agent, Depositary, Administrator, Manager and auditors.

Fees Payable by the Investor

In addition to Duties and Charges as described in the Prospectus, a subscription fee of up to 5% of the subscription monies may be charged, at the discretion of the Directors, in respect of a subscription in the Sub-Fund and a redemption fee of up to 3% of the redemption monies may be charged in respect of a redemption of Shares in the Sub-Fund. Such fees may be retained by the Sub-Fund or remitted to the Investment Manager, sales intermediaries or other third parties.

Any fees and expenses payable out of the assets of the Sub-Fund other than those set out in this Supplement are set out in the Prospectus in the section entitled "Fees and Expenses".

SHARE CLASSES

Details of the Share Classes of the Sub-Fund are set out in the appendix hereto. The Share Classes comprise Share Classes in the Base Currency (each a "Base Currency Share Class") and Share Classes in a currency other than the Base Currency which are hedged back to the Base Currency (each a "Hedged Share Class"). Further information is set out in the Prospectus in the section entitled "Currency Risk – Class Level". Shares may also be Exchange-Traded Shares or Non- Exchange Traded Shares as set out in the appendix hereto. Further information on Exchange Traded Shares and Non-Exchange Traded Shares is set out in the Prospectus in the section entitled "Investing in Shares".

SUBSCRIPTIONS AND REDEMPTIONS

In respect of the Sub-Fund, payment for subscriptions for Shares will only be accepted in cash and redemption proceeds will only be paid in cash. Unless otherwise stipulated in the appendix hereto, subscriptions and redemptions of Exchange-Traded Shares in the Sub-Fund by Authorised Participants will be subject to the Minimum Dealing Size. The Minimum Dealing Size may be waived or reduced for investors in a Share Class at the discretion of the Directors, who may delegate the exercise of such discretion to the Investment Manager.

USE OF COLLATERAL

The policy that will be applied to collateral arising from OTC derivative transactions relating to the Sub-Fund is to adhere to the requirements set out in Schedule 3 to the Prospectus. This sets out the permitted types of collateral, level of collateral required and haircut policy and, in the case of cash collateral, the re-investment policy prescribed by the Central Bank pursuant to the UCITS Regulations. The categories of collateral which may be received by the Sub-Fund include Collateral Assets. From time to time and subject to the requirements in Schedule 3, the policy on levels of collateral required and haircuts may be adjusted, at the discretion of the Investment Manager, where this is determined to be appropriate in the context of the specific counterparty, the characteristics of the asset received as collateral, market conditions or other circumstances. The haircuts applied (if any) by the Investment Manager are adapted for each class of assets received as collateral, taking into account the characteristics of the assets such as the credit standing and/or the price volatility, as well as the outcome of any stress tests performed in accordance with the requirements in Schedule 3. Each decision to apply a specific haircut, or to refrain from applying any haircut, to a certain class of assets should be justified on the basis of this policy.

If cash collateral received by the Sub-Fund is re-invested, the Sub-Fund is exposed to the risk of loss on that investment. Should such a loss occur, the value of the collateral will be reduced and the Sub-Fund will have less protection if the counterparty defaults. The risks associated with the re-investment of cash collateral are substantially the same as the risks which apply to the other investments of the Sub-Fund. For further details see the section of the Prospectus entitled “Risk Factors”.

BORROWINGS AND LEVERAGE

As of the date of this Supplement, the Sub-Fund does not have any loan capital (including term loans) outstanding or created but unissued, and no outstanding bank overdrafts, mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowing under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantees or other contingent liabilities. The Sub-Fund does not intend to use leverage for investment purposes or be actively leveraged through borrowing but the Sub-Fund may enter into FDI which may be inherently leveraged. Leverage is not expected to exceed 25% of the Sub-Fund’s Net Asset Value.

IMPORTANT INFORMATION

Certain risks relating to the Shares are set out in the section of the Prospectus entitled *Special Considerations and Risk Factors*. In addition, Shareholders must also note the following risk considerations in relation to the Index.

Index Performance. All Shareholders in the Sub-Fund should be aware that the value of their Shares will depend on the performance of the Index. There is no assurance as to how the Index will perform in either absolute terms or in relative terms. The Index is ultimately exposed to the performance of the components underlying the Index. No assurance can be given that such components and/or the methodology itself will generate positive returns. The Index return may be lower than the actual return of the selected components. It is not possible to predict whether the level of the Index will rise or fall. The actual performance of the Index may bear little relation to its historical levels. The complete methodology of the Index is available on www.ihsmarkit.com. Before making any investment decision, investors should ensure that they have read and understood these documents and should take professional advice on the potential risks to satisfy themselves that an exposure to the Index and an investment in the Shares is suitable and appropriate for them in light of their own circumstances.

Limited Operating History. The Index has only recently been established as a tradable strategy and therefore has limited historical performance data on which to evaluate its long-term historical performance. Any back-testing or similar analysis on the Index is illustrative only and may be based on estimates or assumptions not used in determining actual levels of the Index. Because the Index is of recent origin and limited historical performance data exists with respect to it, a potential investment in the Index may involve greater risk than investing in investments linked to one or more indices with an established record of performance.

Termination of Index licence. While the ICAV has the right to use and reference the Index in connection with the Sub-Fund in accordance with the terms of the Index licence, in the event that the licence is terminated the Sub-Fund may have to be terminated in certain circumstances.
