Tabula Haitong Asia ex-Japan High Yield Corp USD Bond ESG UCITS ETF (USD) a Sub-Fund of Tabula ICAV (ISIN: IE000LZC9NM0) (the “Sub-Fund”)

USD Accumulating (the “Share Class”)

Investment Manager: Haitong International Asset Management (HK) Limited
Management Company: KBA Consulting Management Limited

Objectives and investment policy

The Sub-Fund is passive and has the objective to track the performance of the iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index.

- The Sub-Fund will seek to achieve its investment objective primarily through investment in a portfolio of USD denominated high yield corporate bonds domiciled in the Asia ex-Japan region that, as far as practicable, reflects the composition of the Index.
- The Sub-Fund will use a sampling strategy and therefore may not hold every constituent of the Index and may not hold constituents in the same proportions as their weightings in the Index. When sampling is used, the Investment Manager will use industry standard tools that are readily available to all investment funds employing a sampling strategy.
- All index constituents must be constituents of the iBoxx MSCI ESG USD Asia ex-Japan High Yield Capped Index. The Index is constructed in such a way to screen issuers for ESG standards and product involvement as defined by MSCI ESG Research. This includes: Thermal Coal, Adult Entertainment, Alcohol, Gambling, Tobacco, Controversial Weapons, Nuclear Weapons, Conventional Weapons, Civilian Firearms, Nuclear Power, Genetically Modified Organisms and Cannabis Recreational. Further, the index excludes issuers in breach of the UN Global Compact or other notable controversies in relation to severe social or environmental impact. In addition, ESG tilt and momentum factors are applied. The index applies a 3% issuer cap and 50% sector cap.

- The Share Class of the Sub-Fund will accumulate income in their value.
- This Sub-Fund may not be appropriate for short-term investment.
- The Share Class is denominated in USD, the Sub-Fund’s base currency.
- In normal conditions, Authorised Participants may deal in shares directly with the Sub-Fund. Other investors can deal in shares daily through an intermediary on stock exchanges on which the shares are traded.

For more information on the Share Class of the Sub-Fund, please see the supplement for the Sub-Fund and the prospectus of Tabula ICAV, available on the product pages of tabulaim.com.

Risk and reward profile

Lower risk			Higher risk			
Typically lower rewards			Typically higher rewards			
<					>

This indicator is based on historical data and may not be a reliable indication of the future risk and reward profile of the Share Class.

The risk category shown is not guaranteed and may shift over time.

The lowest category (Category 1) does not mean ‘risk free’.

The Share Class is rated 4 due to the nature of its investments and the frequency of price movement which include the following risks which may impact the value of the Share Class or expose it to losses.

- No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.
- Liquidity risk: Lower liquidity means there are insufficient buyers or sellers to allow the Sub-Fund to sell or buy investments readily. Neither the Index provider nor the issuer make any representation or forecast on liquidity.

- Counterparty risk: The Sub-Fund may incur losses if any institution providing services such as safekeeping of assets or acting as a derivatives counterparty becomes insolvent.
- ESG screening: The environmental, social and governance screening criteria are embedded with the index selection process, which seeks to exclude bonds issued by companies involved in certain activities. The investment manager is not responsible for monitoring the screening process or confirming that all bonds which pass the screening process are issued by companies with adequate environmental, social or governance standards.
- Credit risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Sub-Fund when due.
- High yield securities risk: The prices of high yield bonds are likely to be more sensitive to adverse economic changes or individual issuer developments than higher rated securities possibly leading to high yield issuers not being able to service their principal and interest payment obligations. The secondary market for securities that are high yield may be less liquid than the markets for higher quality securities.
- Emerging markets risk: issuers from emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include a greater ‘Liquidity Risk’, restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.

For more information on the risks to the Sub-Fund, please see the supplement for the Sub-Fund and the prospectus of Tabula ICAV, available on the product pages of tabulaim.com.

Charges for this Share Class

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge: None*

Exit charge: None*

Charges taken from the Sub-Fund over a year

Ongoing charges: 0.60%
